THE LOCK MANUFACTURERS of

WOLVERHAMPTON versus CHUBB.—We, the undersigned, lock manufacturers of Wolverhampton, who have been awarded Prize Medals at the Great Exhibition, in conjunction with Messrs. Chubb, have seen with considerable surprise the pretensions put forth by them in their advertisements in the Wolverhampton Chronicle, of October 22 and 29, that their locks are the best and most secure before the public, and founding their claims to superiority on the ground of having special approbation annexed to their award. We hereby protest against such pretensions, and question their right to superiority, either for principle or workmanship; we declare our belief that, as lockmakers, we are equal in every respect to Messrs. Chubb, and we are authorised, on the authority of Dr. Lyon Playfair, to state that the award of Special Approbation was intended to indicate that the collection shown by the exhibitor generally merited approval, in addition to the objects especially included in the medal award. It was also distinctly stated by his Royal Highness Prince Albert, in his speech at the close of the Exhibition, that the jurors did not attempt to decide on degrees of merit, but they rewarded all who had attained a certain degree of excellence. Now, we cannot, and we think the public will have the same difficulty to discover the grounds for such boasting, so different to the conduct of Messrs. Bramah, who also received Special Approbation with their Prize Medal; and we think that Messrs. Chubb should have been the last persons to put themselves forward after the great humiliation they must have experienced in having their locks picked by Mr. Hobbs.

We hereby challenge Messrs. Chubb to test their claims to superiority before a competent tribunal, as the only mode of arriving at the truth, the judges to be chosen partly by ourselves and partly by Messrs. Chubb, and the locks to be those shown by each of us at the opening of the Exhibition on the 1st of May last.

HENRY YATES.	JOSEPH TAYLOR.
BENJAMIN WALTERS.	CHARLES AUBIN.

The above has twice appeared in the Wolverhampton Chronicle, without being replied to by Messrs. Chubb; we therefore leave it to the discerning public to draw the inference.

London, Oct. 27, 1849.

Mr. Nathan Gough.

Sir,—I have, for Mr. Barry, the pleasure of replying to your request of the 4th inst., for a testimonial of the working of three steam-engines you have supplied to the New Houses of Parliament at Westminster, by saying that they have fully answered the purposes for which they were required, viz., hoisting the building materials; and two of the three have been at work for some years, with very little repairs, and with considerable economy of fuel.—I am, Sir, your obedient servant,

Per pro. CHARLES BARRY,

REVOLVING SAFETY WOOD and

IRON SHUTTERS.—SNOXELL, Patentee, 93, Regent-street, and at his Spring-works, [illegible]-street. These shutters have fully borne out their superiority over other revolving shutters for security, durability, and simplicity. References can be given to noblemen whose mansions are fitted herewith, and numerous large establishments, where some are fixed measuring upwards of 300 square feet in one shutter, and which are opened and closed in a few moments with the greatest possible ease, without the use of machinery. The Patentee manufactures Brass-sash Bars, Stall Board Plates, &c.

MESSRS. C. AND CO. DID NOT EXHIBIT AT THE GREAT EXHIBITION.

PRIZE MEDAL IRON SHUTTER.

BUNNETT AND CO., ENGINEERS,
ORIGINAL PATENTEES OF REVOLVING IRON SHUTTERS,
Respectfully recommend their
NEW PATENT CURVILINEAR REVOLVING IRON SHUTTER,
For which the PRIZE MEDAL of the GREAT EXHIBITION has been awarded.

This Shutter is far superior in STRENGTH, DURABILITY, and APPEARANCE to the CONVEX or any other Revolving Iron Shutter. The adoption of the terms of Bunnett and Co.'s advertisements, and the imitation of their various works, without regard to quality, has given rise to many complaints, and tended in some degree to bring such works into disrepute; many persons not being aware that there are other makers.

Bunnett and Co. have therefore made such improvements and additions to their extensive plant of machinery as will enable them successfully to compete with the lowest prices of other makers, without impairing the well-known quality of their own works, and they earnestly solicit a comparison of their New Patent Revolving Iron Shutters with any others, which will at once prove them to be the best and very much the cheapest in the end, and a saving of great and constant annoyance by their not getting out of order.

NASMYTH'S PATENT

WROUGHT-IRON Fire-proof Flooring.

JOHN WALKER, Sole Manufacturer and Licensee.
Offices, 43, Gracechurch-street.

FIRE-PROOF FLOORS.

The late lamentable accident in Gracechurch-street serves to prove that where cast-iron is the foundation on which floors, &c. are made, much dependence cannot be placed on it. This induces John Walker to earnestly solicit the attention and inspection of Architects, Engineers, &c. to Mr. G. NASMYTH'S PATENT FLOORING, of which J. W. is the sole licensee and manufacturer. The material is wrought iron, and therefore not subject to sudden fracture, as cast-iron is—and wood is not introduced.

Descriptive pamphlets may be had, models may be seen, and every information obtained, at JOHN WALKER'S OFFICES, 43, Gracechurch-street.
